Mandatory Biometric Update (MBU) of Students' Aadhaar Card

Dear Parents,

As per the instructions received from the School Education Department, Government of Maharashtra, it is mandatory to complete the Mandatory Biometric Update (MBU) of every eligible student's Aadhaar Card.

Parents are requested to get the biometric update of their child's Aadhaar Card completed at the nearest Aadhaar Enrolment/Update Centre, only if the child's biometric update has not yet been completed.

Parents are requested to send a photocopy of the updated Aadhaar Card to the school after the biometric update is completed.

If your child's Aadhaar biometric has already been updated, kindly ignore this circular.

Why is the Mandatory Biometric Update (MBU) important?

Government Requirement: Biometric Update (MBU) is mandatory for all children between the ages of 5 and 18 years, as per UIDAI guidelines.

Access to Government Benefits: An updated Aadhaar ensures uninterrupted access to various government schemes, scholarships, and other benefits.

Future Academic Requirements: UIDAI has advised timely biometric updates to avoid issues during registrations for examinations such as JEE, NEET, CUET, and other competitive examinations.

We request all parents to extend their cooperation in completing this mandatory process.

With regards,

Principal
